

## Swing Scalping Method Webinar

“Swing Scalping” – An Advanced Short Term Trading Tactic (3 Hours).

This is our latest concept of short term trading. This 3 hour recorded event will cover the strategy of “Swing Scalping”. We explain the method of riding the “waves” of short term momentum and exiting for quick profits. This video will teach you how to maximize profits while limiting the downside by focusing on the correct approach to taking an entry.

The recording for download is in WMV format which can be played on Windows, Apple Mac and even Android with a suitable video player software.

You can download the file and save to your computer.
